## **CHAPTER 400 OBJECTIVE**

The purpose of Chapter 400 is to identify policy and procedures relating to:

1. The acquisition of land to be enrolled in County Forest pursuant to s. 28.11(4) (b), Wis. Stats. or other lands possessing special or unique values areas that are not suited primarily for timber production to be entered under s. 28.11(4)(c), Wis. Stats., special use classification.
2. The acquisition of lands throughout the county for the purpose of future trading for priority parcels to be enrolled in County Forest pursuant to s. 28.11(4)(b), Wis. Stats.
3. The acquisition of land interests such as conservation easements, first right of refusal, or other land rights of the benefit to county forests.
4. Location, identification, and protection of county forest ownership boundaries.

### **400 COUNTY FOREST OWNERSHIP**

The majority of the County Forest lands throughout the State were previously in private ownership and came under public ownership in a substantially degraded condition, by way of real estate tax delinquency and subsequent tax deed to Counties. Continued attempts to sell much of the degraded tax deeded lands were unsuccessful. In response to the lack of demand from private owners, counties worked in cooperation with State and Federal Agencies to restore these lands into productive forests and recreational assets. (“The County Forests of Wisconsin”, WI Conservation Dept., 1938). For more discussion of Wood County Forest history, see Chapter 100.

Over time, counties have realized benefits from continuing to retain select tax deeded land, acquiring select land from willing sellers by purchase, trade, or gift, and the continual protection of county forest ownership boundaries.

### **405 LAND OWNERSHIP GOALS**

It is the goal of Wood County to acquire land from willing sellers for fair prices established pursuant to Uniform Standards of Professional Appraisal Practices or other method approved by the County. Acquisitions may be accomplished through trades, donations, or outright purchases. Such acquisitions shall be for meeting the mission statement (see chapter 100) and for the benefit of all Wood County citizens. See section 420 for criteria on how to achieve these goals.

### **410 COUNTY FOREST BLOCKING**

Since the beginning of the County Forest Program in the State of Wisconsin, counties established boundaries for distinguishing between lands that were best suited for forestry and lands best suited for agricultural production. This boundary became referred to as a “Blocking Boundary” and provided public information, assisted long-term planning, and guided management decisions.

In the early stages of the development of County Forests, counties commonly traded tax deed parcels that were located outside of the Blocking Boundary for the remaining privately owned parcels within the Blocking Boundary. A primary purpose for these trades was to promote agricultural economic development by assisting farmers with obtaining the most productive agricultural lands available in a given County.

Blocking Boundaries are dynamic and should be evaluated on a routine basis to evaluate adequacy relative to the current priorities. Forestry staff will notify the Committee as parcels become available within the Blocking Boundary.

County Forest Blocking Boundaries are established by the Committee and by subsequent approval of the Wood County Board. A map of the official boundaries can be found in the Appendix.

**415 PRIVATE INHOLDINGS**

Wood County recognizes the existence of private landholdings within the forest boundaries. The County will respect the rights of the private landowners who are its neighbors. The County may approach private landowners with proposals for land purchases or trades, but will not coerce landowners to sell or trade. It would not be the intent of Wood County Forest to pursue properties through condemnation.

**420 ACQUISITION OF LAND WITHIN THE COUNTY FOREST BLOCKING BOUNDARY**

The land within the blocking boundary includes private land as well as land owned by Wood County and other government entities. It is not the deliberate intent of Wood County to acquire all lands within the blocking boundary.

The Committee in consultation with the County Forest Administrator shall make determination of a parcel’s value to the County and the State of Wisconsin.

Certain lands are considered to be of higher priority for acquisition due to:

1. Lands that improve management efficiencies such as reducing the length of private/public boundaries or improve access to existing county forest.
2. Lands that will increase the counties inventory of productive timberland and provide a consistent source of raw material to the forest products industry.
3. Lands that conserve surface and groundwater, maintain undeveloped shoreline, and increase public access to water features.
4. Lands that are threatened by private development or fragmentation that may result in a long-term negative impact on adjacent public lands.
5. Lands that will provide for priority trail connections and expansions, reduce, or eliminate existing user conflicts.
6. Lands that contain threatened or endangered plant, animals, or communities; or other natural features considered to be of high conservation value.
7. Lands that, when acquired by the county, will not result in an unreasonable negative impact to local tax collections as determined by the Committee in consultation with the affected Towns.

**425 ACQUISITION OF LAND OUTSIDE THE COUNTY FOREST BLOCKING BOUNDARY**

Counties may consider acquisition of lands outside the blocking boundary in instances where:

1. Land becomes available to the County, which possess values consistent with the priority criteria listed above, and is eligible to be enrolled as County Forest Special Use under s. 28.11(4) (c) Wis. Stats.
2. Land becomes available to the County that, if acquired by the County, will facilitate a fair trade or other transaction resulting in county ownership of land within the county forest blocking boundary.

#### 430 ACQUISITION OF LAND RIGHTS

In addition to acquiring fee simple land ownership, Counties may find it advantageous to acquire other interests in private or public lands within the blocking boundary such as:

1. Ingress and egress easements for county management purposes
2. Conservation easements for such purposes as:
  - A. Limiting residential density.
  - B. Managing runoff that affects county land.
  - C. Achieving greater silvicultural consistency, pest management, invasive species control, research, or other on adjacent private lands.
3. First right of refusal.
4. Flowage easements.

#### 435 METHODS AND AUTHORIZATION FOR ACQUISITION LAND TITLE OR RIGHTS

Acquisition may be by outright purchase or trade based on competent appraisal of the value or values involved, or by gift, bequest or action to foreclose tax liens. The County Forest Administrator will be the agent of the Committee in making first contact with potential sellers and in carrying on acquisition activities, in accordance with Wood County policies and ordinances (i.e. Forestry Ordinance and Land Transaction Policy contained in appendix).

In the event that the County Forest Administrator determines that a land or land rights acquisition is in the best interest of the County, in consideration of the factors described above, the County Forest Administrator shall present a recommendation to the Committee. Upon approval of the Committee, the County Board shall forward an authorizing resolution for consideration.

County Board authorization is required for execution of any legal instruments that bind the county to acquiring title or other land rights. In the event that an agent of the county, prior to County Board authorization, said legal documents sign, any legal documents must include an explicit contingency requiring County Board approval.

#### 440 FINANCING

County Forest Administrator shall propose financing options as part of any recommendations to acquire forwarded to the Committee. Typical funding sources include:

1. Fund balance that has resulted from previous county forest withdrawal proceedings. These funds are kept in the non-lapsing account known as the County Forest Land Fund.
2. Funds appropriated through the County's capital budgeting procedure.
3. Grants and Loans, including:
  - A. Loans
    - i. County Forest Project Loans (s. 28.11(8)(b)(2)), Wis. Stats)
    - ii. Variable Acreage Share Loans (s. 28.11(8)(b)(1)), Wis. Stats)
    - iii. Board of Commissioners of Public Lands State Trust Fund Loan Program (s. 24.61(3)(a)(2)). Wis. Stats.)
  - B. Grants
    - i. Warren Knowles-Gaylord Nelson Stewardship Program (s. 23.0953, Wis. Stats.)
    - ii. County Forest Stewardship Subprogram (s. 23.0953, Wis. Stats.)
    - iii. Acquisition and Development of Local Parks Subprogram (s. 23.09(20), Wis. Stats.)
    - iv. Lake Protection (s. 281.68 Wis. Stats.)
    - v. River Protection (s. 281.70 Wis. Stats.)
    - vi. County Forest Wildlife Habitat (s. 20.370(5)(as)), Wis. Stats.

- vii. County Forest Fish and Game Projects (s. 23.09(12), Wis. Stats.)
- viii. ATV/UTV Trail Aids (s. 23.33(9), Wis. Stats.)
- ix. Snowmobile Trail Aids (s. 23.09(26), Wis. Stats.)
- x. Federal Funding (s.20.370 (5) (CY), Wis. Stats.)

#### **445 ENTRY OF LANDS**

Lands to be entered under the regular classification of the County Forest Law must be suitable for forestry purposes and be within the County Forest blocking boundary. Lands designated for classification as County Forest -Special Use need not be contained within the county forest blocking boundary nor suitable primarily for timber but they must be suitable for scenic, outdoor recreation, public hunting and fishing, water conservation or other multiple-use purposes.

##### **445.1 Time of Entry**

Application for entry of newly acquired lands under the County Forest Law will be made as soon as possible. Applications for entry will be prepared with the assistance of the DNR Forestry Liaison. The County Forest Administrator will secure the signatures of the proper county officials and transmit the application to DNR's County Forest & Public Lands Specialist.

#### **450 WITHDRAWAL OF LANDS FROM COUNTY FOREST LAW**

Lands within the County Forest blocking boundary will not normally be considered for withdrawal from the County Forest Law. The committee will discourage applications for the purchase of these lands by the private sector, unless a greater public benefit can be demonstrated. All proposals for purchase of Wood County Forest lands must follow procedures established in the Wood County Forest Land Transaction Policy. If, in the opinion of the Committee and county board, the land will be put to better and higher use and will benefit people of the county and State to a greater extent by being withdrawn from the County Forest Law program, the County should follow the withdrawal procedure as outlined by the Public Lands Handbook. S. 28.11, Wis. Stats, provide the legal means by which counties may apply for withdrawal of lands from County Forest status. Initially the County Forest Administrator notifies the DNR Forestry Liaison Forester of the County Committee meeting at which the proposed withdrawal will be considered. At that meeting, DNR personnel and the County will discuss the proposed withdrawal and, if approved by the Committee, the withdrawal will be recommended by the Committee by resolution to the County Board. If approved by the Board by the necessary 2/3 majority, the application is prepared by the county and submitted to the appropriate DNR designee. The DNR may ask for additional information from the County. Pending the results of any investigatory hearings deemed advisable, the DNR will act on the withdrawal application. If the application is denied, the County may appeal as provided in s. 28.11(11) (a) 4. Wis. Stats.

##### **450.1 Withdrawal Procedure**

The purpose of this section is to provide general information in formulating and processing applications for withdrawal of County Forest lands under s.28.11 (11) Wis. Stats. In addition, ch. NR 48, Wis. Adm. Code. The legal means by which counties may apply for withdrawal of lands from county forests is provided by s.28.11 (11) (a) Wis. Stats. This section states in part: "The County Board shall first refer the resolution to the county forestry committee which shall consult with an authorized representative of the department in formulating its withdrawal proposal." Section. 28.11(11) (a) Wis.Stats. Also states: "The county board shall not take final action thereon until 90 days after such referral or until the report thereon of the forest committee has filed with the board."

Consequently, if the county board takes final action on a withdrawal application without referring it to the County Forestry Committee, the application is not valid. On the other hand, if the County Forestry Committee does not report to the county board within 90 days after receipt of the referral, the Board may

act upon the application without a Committee recommendation.

## **455 LAND SURVEYING**

The importance of survey corner monumentation is recognized in the interest of avoiding the problems of trespass both by and against the County, facilitating the settlement of those cases, which would occur, and aiding in the proper transfer of property.

### **455.1 Legal Surveying**

Of prime importance are the forest boundaries and property lines in common with other owners. All such surveying shall be under the supervision of a registered surveyor. When the office of the county surveyor is not staffed, the committee will comply with the provisions of Chapter 59, Wisconsin Statutes by hiring registered surveyors to perform the necessary running of property lines. Section corners, one-quarter corners and forty corners (1/16 corners) will be reestablished where needed and Certified Land Corner Restoration forms filled out in duplicate as time permits, under the direction of registered land surveyor.

### **455.2 Location of Lines by other than Legal Survey**

Forestry personnel who are not registered surveyors may, with all possible prudence, establish lines for forest management purposes including those necessary for ordinary management activities such as timber sales and road / trail locations using available equipment including, but not limited to, air photos, quadrangles, county surveyor's records and known corners. In the absence of known corners, lines abutting other ownership may be established by mutual agreement to avert trespass claims. At a minimum, notify the adjoining landowner(s) of the management boundary in writing. This documentation should be retained in the timber sale file.

### **455.3 Preservation of Landmarks, Monuments and Corner Posts**

Section 59.74, Wis. Stats., provides:

1. Penalties for destruction of landmarks, monuments and corner posts established by government survey, the county surveyor or a surveyor or public record.
2. A procedure for notification of intent to destroy such surveying evidence and referencing prior to destruction.
3. The assignment of enforcement responsibility to the Department of Natural Resources, District Attorneys, and professional land surveyors

All personnel with land management responsibilities are directed to:

1. Make a reasonable search for the above-mentioned surveying evidence prior to implementing any soil moving or cover type manipulation projects, including timber sales, that could result in covering, destruction or removal of such evidence.
2. In the event such evidence is found:
  - A. If practical, redesign the project so that the evidence will not be disturbed or
  - B. If destruction is unavoidable, (s 59.74(2) (b), Wis. Stats.) notify the county surveyor at least 30 days prior to destruction giving the legal description of the monument and the reason for destruction or other obliteration. The notice shall include a description of the landmark, monument of survey, or corner post and the reason for removing or covering it.
3. If reasonable search fails to uncover survey evidence in the suspected vicinity, conduct an additional search if he/she sees fit.
4. In order to further reduce the possibility of inadvertent destruction of invaluable survey evidence:
  - A. Each forester with county forest responsibilities should discuss with county administrators the need for including adequate protective clauses in easements, rights-of-way, timber sale

contracts, and other agreements that might result in destruction of monuments.

- B. Personnel advising landowners regarding forestry or other land management practices should alert such owners to possible monument destruction that may be caused by them.
- C. Any instances of potential or accomplished obliteration of survey monumentation discovered in the course of field operations should be brought to the county surveyor's attention.

#### **460 TERMS OF LAND SALE OR TRADE**

All sale or trading of county lands within the forest boundaries shall be subject to terms established between the Committee and the party which will receive land from the County.

Furthermore, all sale or trading of County Forest lands shall be subject to the terms established and prescribed in: the Wood County Forestry Ordinance, and the Wood County Park and Forest Land Transaction Policy (See Appendix).

#### **465 PROPERTY RIGHTS CONVEYANCES**

The instrument used for property right conveyance shall be the one which relinquishes the least amount of County control over public land. All property right conveyances will be made on a case by case basis. Examples are listed below:

- A. Easements: An easement is a permanent right that entitles the easement owner to use of the land of another for a special purpose not inconsistent with the general property rights of the owner. Easements run with the land and do not expire. They may be appropriate for public utilities, such as gas, electric and communication uses, and public road rights-of-way.

Easements shall not be used for access to private lands unless there is exceptional advantage to the County Forest, and unless the easement further promotes the purposes of the County Forest program. The committee may consider easement requests on a case-by-case basis. The County Forest Administrator will consult with DNR's County Forest Specialist on these cases.

- B. Lease: A lease is a written document, which grants use of real property and/or improvements to another party for a specified period, for monetary or other consideration. Specific County Forest Law provisions regarding leases can be found in ss. 28.11(3) (i) and (j), Wis. Stats. Leases on County Forest lands shall be negotiated for the shortest possible period of time and in no case shall they exceed ninety-nine years.
- C. Permit: A permit is a written document conferring a right, power or privilege to do a particular act or series of acts on land of another without possessing any interest therein. A permit can be revoked with cause and cannot be assigned to other parties. A permit, unlike an easement, does not imply an interest in the land and is not transferred with the land. Permits issued on County Forest lands shall be issued for the shortest possible period of time and in no case shall they exceed ninety-nine years.

Permits shall be the preferred property rights conveyance for private driveways and most other activities dealing with the private individuals using County Forest lands. Driveway permits expire when the land changes ownership. A prospective new property owner may receive a driveway permit in advance of completing a property purchase. Advance permits will not become effective until the new property purchase is recorded by the Register of Deeds office. The County will retain the right to revoke a driveway permit with cause. "Cause" can include, but is not limited to, violation of permit terms, misuse of County land, damage to County

property, and noncompliance with County ordinances.

- D. Agreement: An agreement is a written document executed by two or more persons or entities expressing a mutual and common purpose. An agreement details the responsibilities, obligations, conditions, liabilities, etc. of all parties concerned and would be an appropriate instrument for dealing with activities such as public school forests, flowages, gravel crushing operations, and concessions. Agreements shall be effective for the shortest possible time.

#### **465.1 Terms of Property Rights Conveyances**

Any agreement, license, permit, lease or easement must contain at least the following information, requirements and terms. More restrictions may be added as needed to protect the interests of the public.

- A. Location by legal description
- B. Permitted uses under the conveyance
- C. Fee for the use of the land
- D. Expiration date
- E. Right of the County to cancel or suspend the conveyed rights with cause
- F. Requirement for restoration to original condition upon expiration or cancellation of the conveyance.

#### **465.2 Procedures for Property Rights Conveyance**

Proposals to use County Forest lands for private purposes without purchasing the land may be approved depending on the nature of the proposal and its consistency with the purpose of the forest.

These procedures are contained in the Wood County Park and Forestry Land Transaction Policy mentioned previously (See Appendix).
