

HIGHWAY, INFRASTRUCTURE & RECREATION COMMITTEE AGENDA

DATE: Thursday, November 5, 2020
TIME: 9:00 a.m.
PLACE: Wood County Highway Department
555 17th Ave North
Wisconsin Rapids, WI 54495

1. Call meeting to order.
2. Declaration of Quorum.
3. Public comments.
4. Correspondence
5. Approve minutes from previous committee meetings.
6. Revisions to 2021 Highway and Parks & Forestry Budgets
7. ATV Trail/Route System Update
8. **HIGHWAY**
 - a. Highway Staff Reports.
 - b. Highway Revenue Report.
 - c. Highway Vouchers
 - d. Marshfield Salt Brine Facility
 - e. On Line Permitting Review
 - f. Highway Virtual Tour
9. **PARKS AND FORESTRY**
 - a. Parks & Forestry Staff Reports
 - b. Special Use Permits
 - c. Wood County Forest 15-Year Plan, Draft Chapter 700 and Assorted Maps
 - d. Parks Revenue Report.
 - e. Forestry Revenue Report.
 - f. Parks and Forestry Vouchers.
10. The committee may go into closed session pursuant to Wis. Stat. s. 19.85(1)(c) to conduct performance evaluations of the Highway Commissioner.
11. Return to open session.
12. Future Agenda Items
13. Set next regular meeting date: December 5, 2020
14. Adjournment

**MINUTES OF THE
HIGHWAY, INFRASTRUCTURE & RECREATION COMMITTEE**

1. **DAY & DATE:** October 1, 2020
2. **PLACE:** Wood County Courthouse, Rm 114,
400 Market Street, Wisconsin Rapids, WI 54495
3. **MEETING TIME:** 9:00 A.M.
4. **ADJOURNMENT TIME:**
5. **MEMBERS PRESENT:** Chairman Jacob Hahn, Supervisor John Hokamp,
Supervisor Lee Thao, Supervisor David LaFontaine
PRESENT VIA WEBEX: Supervisor Al Breu

OTHERS PRESENT: Chad Schooley, Parks & Forestry Director; Fritz Schubert, Forest Administrator; Roland Hawk, Highway Commissioner; Supervisor Dennis Polach; Supervisor Bill Clendenning;

PRESENT VIA WEBEX: Chairman Lance Pliml; Sarah Christensen, Emergency Mgmt.; Dan Knoeck, City of Marshfield.

6. Call meeting to order. Meeting called to order at 9am.
7. Declaration of quorum. Yes. Caller identified as Sarah Christensen from Emergency Management.
8. Public comments. None.
9. Correspondence. None.
10. Approve minutes from previous committee meetings.

Motion by D. LaFontaine, second by A. Breu. Motion carried.

Skip to Parks & Forestry section.

11. ATV Trail/Route system update. R. Hawk handed out maps with the updated and highlighted mainline routes North to Marathon County, West to Clark County and East to Portage County. We would then have route connections to all neighboring counties. In addition, there are other open roads access to other towns and municipalities. The ATV planning group is requesting approval for this plan. It is roughly 25 miles and with signs and materials we currently have in our stock, Hwy could begin install this fall. The CEED Economic Development grant for \$10,000.00 could be used immediately for additional sign purchase. The North/South could be done by this fall and the East/West sections in the spring if the additional \$10,000 is approved in the P&F 2021 budget.

Motion by D. LaFontaine and second by A. Breu. Motion carried.

Request from R. Hawk to move up items 8.e. and 8.f. for City of Marshfield as they are on WebEx.

12. Parks, Forestry, and Highway tour. This was placed on the agenda to discuss the annual tour. C. Schooley asked the committee if they are interested in doing this in 2020. A more favorable time is to do it in the spring or early summer and at that time, look at the projected projects for 2021. Now is not a time to do this. Consensus is to hold off. J. Hokamp requested that we put together a list of what would normally be on a tour for this time of year. R. Hawk will try to put a virtual tour together for November's meeting at the Hwy. Dept.

13. HIGHWAY

- a. Highway staff reports. Schedule is back to 7-3. M-F. Staggering groups so Covid19 does not spread amongst the staff. CTU is complete but have a few small things to wrap up. Had a small issue with the concrete that is resolved. As of last week, they are at 98% of the expected budget so they should be right on target for EOY budget dollars. DOT is asking them for a few maintenance items to be completed. Hwy. met with T. of Dexter last night for an amendment to

their ordinance to allow ATV's to cross the dam from Dexter Park to access the gas station and Dexter Drive-In. This information will be shared with the DNR/DOT for a final blessing. As soon as this is received, this portion of the route will need to be signed and then it can be opened.

- b. Highway revenue report. Revenues are on target. County Trunk Y will be a little over budget because it had wider shoulders and ran a little over on pavement.
- c. Highway vouchers.

Motion by D. LaFontaine and second by L. Thao. Motion carried.

- d. Sale of out-lot, Town of Cary highway property. R. Hawk provided some information regarding this situation. He handed out some information including the Resolution, Quit Claim Deed and the Certified Survey Map from Badger-Land Survey. The price for the 5-acres is \$7,500.

Motion to move forward with the sale of this out-lot in the Town of Cary by D. LaFontaine to approve sale of property and resolution and second by A. Breu. R. Hawk answered a question regarding surveying by B. Clendenning. Motion carried.

- e. Adler Street, No Parking request from City of Marshfield. Request to remove parking and move to an existing area and reduce the speed. An additional alternative from the City came forward to relocate and remove the parking on the south side, open up more areas on the north side and keep everyone on the north side of the road so one side of parking reduces the width, which is a good alternative to removing parking altogether. R. Hawk will also be doing an official speed study and putting a document together to show he went through the official process.
- f. Adler Street (CTH Y) speed reduction request from City of Marshfield.

Motion to approve the City of Marshfield's request to reduce the speed limit to 35 and restrict parking on the south side of the road while opening it on the North. Motion carried.

- g. Review of Highway 5 YR plan. R. Hawk emailed the 5-year plan to all the committee members and reviewed the information with them. Discussion only.

14. PARKS AND FORESTRY

- a. Parks & Forestry Staff Reports.
- b. Special Use permits. There is one permit request for the week of October 4-10, 2020 is a National Mental Illness Awareness Week. NAMI from Portage/Wood County requesting to place ribbons around Lake Wazeecha walking path. There are no issues from the committee to leaving the ribbons up for approximately a week and be taken down.
- c. 2021 Parks & Forestry fees. Where are we compared to adjacent counties? C. Schooley reviews the fees and asks Sandy to update the spreadsheet with the current year information. Our fees are on the average side as far as the adjoining counties. C. Schooley would like to address the dump station fee. Only for individuals not camping but want to utilize our dump station. Wisconsin Rapids currently charges \$10. We do not want to attract people to use our dump station that are not camping, so the fee should be comparable to the City. C. Schooley is requesting the dump station fee to \$10.

A motion by D. LaFontaine to raise the dump station fee to \$12 and second by L. Thao. No discussion. Motion carried.

- d. Emergency Management storm shelter building. C. Schooley handed out information he recently received from E.M. There are available funds through State and Federal Emergency Management programs to fund construction of a storm shelter building. E.M. made application for this project following the 2019 storms. The project has received tentative approval for a location at South Wood County Park. E.M. decided on this location based on the number of severe storms in the Lake Wazeecha area in recent history, and the number of large events held at this park. Anyone in the community would be able to use the shelter in times of severe weather. Wood County would be responsible for 12.5% of project cost, or approximately \$56,250. Schooley still has questions regarding this project, including design and use options for this building. C. Schooley just wanted to bring this before the committee so they are aware of it. As funds are concerned, in-kind work or donations could be used, as well as possibly the P&F Capital Projects non-lapsing funds. This is not currently budgeted for 2021. S. Christensen is requesting that a decision be made on if we would like to proceed with building plans by next month's meeting if possible. C. Schooley will bring this back to the November HIRC meeting.

Motion made by D. LaFontaine to begin the planning for this project and second by A. Breu. Motion carried.

J. Hokamp would like to at least have additional ideas of what this building could be used for. J. Hahn asked about the value of the land the building would be built on. The cost of real estate could go toward our share of the grant and C. Schooley would need to get clarification on this. D. LaFontaine asked about the public getting into the building and would it be open 24-7 and what about vandalism? S. Christensen suggested putting a system in there to unlock it during severe weather. It would not be open at all times and this would be determined between dispatch and Emergency Management – remote unlocking mechanism. This building can also be used for possibly longer-term use for example, loss of electricity in the area, medical needs, etc.

L. Thao asked if we could charge a usage fee if someone wanted to use the building for an event. Will this have a hindrance on whether or not we can obtain funds? C. Schooley's thoughts are to charge a user fee for this building for regular recreational events so we can re-coup some of the maintenance costs through user fees. B. Clendenning is requesting this be looked at by the Township of Grand Rapids before applying for grants. S. Christensen stated that in order to continue the approval process, we do need a preliminary floor plan, which will cost about \$3700 for a schematic design. All in-kind work and donations will be applied to the county's share.

- e. Wood County Wildlife Area Committee – Applicant for consideration to fill vacant position. F. Schubert placed the application into the packet. We have a vacancy on this committee. This will then be forwarded to the Chairman of the board where they appoint this individual.

Motion by D. LaFontaine to approve applicant and move to County Board to approve and second by J. Hokamp. Motion carried.

- f. Parks revenue report. Parks is going very strong in revenues. C. Schooley stated there have been approximately 4,000 additional camping unit nights compared to 2019. D. LaFontaine asked where this additional revenue would go. C. Schooley stated these additional would go towards reducing our department's tax levy. However, in years where there have been revenues exceeding the budgeted amount, the department has been allowed to place some of those funds into their Capital Projects non-lapsing account. If this is the case at the end of the year, Schooley stated he would make this request to the Committee.

- g. Forestry revenue report. F. Schubert stated it was a very slow month. We did receive our settlement for the performance bonds issue (discussed at previous meetings) which was \$35K, which is listed under parks miscellaneous revenue.
- h. Parks & Forestry vouchers. No discussion.

Motion by D. LaFontaine and second by A. Breu to approve vouchers. Motion carried.

Return to Item #6, ATV Trail System update.

15. Future Agenda Items

16. Set next regular meeting date: November 5, 2020 at 9:00am at ***Wood County Highway Department***,
555 17th Ave North, Wisconsin Rapids, WI 54495

17. Adjournment. Meeting adjourned at 10:22 am.

Recording Secretary: Sandra Green, Parks & Forestry, Office Supervisor

Wood County

WISCONSIN

OFFICE OF
HIGHWAY COMMISSION

Roland Hawk
COMMISSIONER

November 5, 2020

To: Highway, Infrastructure & Recreation Committee

From: Roland Hawk, Highway Commissioner

Subject: Commissioner Report for November 5, 2020 HIRC meeting

Department Activities

Personnel

Commissioner will seek permission to fill Administration Assistant position in November. As part of the Finance Department's request to make some cuts to 2021 budget, Commissioner has agreed to wait and fill the Accounting Technician position until February or upon approval.

As part of the Finance Department's request to make some cuts to the 2021 budget, Highway has agreed to reduce the requested amount to Local Bridge Aid and Local Road Aid. This is an item on the HIRC agenda to be discussed.

Assigned work pods/groups to begin November 9. Crews will begin working in small groups of 5 -6 in order to maintain sufficient numbers in case of a COVID outbreak.

City of Marshfield is interested in possible agreement to help cover winter routes in case of COVID outbreak in either the city or the county crews.

Public Relations

(On going) Commissioner is working with Steve Budnik, Community Resource Supervisor with Wood County Human Services Department to coordinate space to park some of the County's buses under roof at the Marshfield Highway Facility. Hoping to have space available first week of November. The garage approach needs to be shaped and paved for buses to use the garage.

Working with the City of Marshfield to remove parking from the south side of Adler Street from the west city limits to Lincoln Avenue as well as reducing speed limit in the same segment. The City has agreed to enforce the no parking zone.

Commissioner and consultant held a public open house September 29 at Town of Grand Rapids fire station to discuss reconstruction of the CTH W and 48th Street intersection as well as the CTH Z and 48th Street intersection. Two alternatives for each intersection were presented and public input is being collected to determine which alternative is best suited for the intersections.

Highway Projects

Work to replace a bridge on CTH V just south of Cary-Rock Road is scheduled to be complete by November 13.

Paving on CTH N should be completed by November 6.

Crews are performing various projects for WisDOT.

Highway Maintenance

Crews are working on maintenance projects such as replacing culverts that have failed, cleaning ditches, and replacing or repairing signs.

Our focus is shifting to winter maintenance and preparing plow trucks for ice & snow control.

Engineer has opened bids to construct the foundation for a brine distribution building at the Marshfield facility. Phase 1 is the foundation and utility installation expected to be completed by late winter or early spring 2021. Phase 2 will be completed in 2021 or 2022. Agenda item to be discussed.

Oversized/Over weight and utility permits have been moved online to electronic format.

Crews made repairs to the drains in the shop floor at the Marshfield shop.

As the ground freezes, crews will begin installing posts for snow fence.

ATV Plan

Department is working with Town of Dexter and WisDOT to gain access to State Highway 54 and 80 so riders can access the Dexter Drive Inn and Lake Side Oasis.

Department is utilizing the P & Z Economic Development Grant funds for installation of signs for northern ATV route through the county.

Accounting Supervisor Report

By John Peckham, Wood County Highway Department Accounting Supervisor

HIRC Meeting

Revenues

Revenues are as anticipated.

In October, we received the final GTA payment. With county construction projects winding down, State and Local charges are picking up. We have done a number of Road and Bridge Aid projects that bump up revenues as the invoices are approved and sent. Bituminous revenues are in good shape.

Expenses

Expenses are as anticipated.

Bituminous Operations expenses are a bit higher than expected but are offset by the revenues. Expenses to local governments are picking up as we have completed our County projects and moved on to municipals. Snow removal expense is an area we will monitor as the next few months pass. We are hoping for a quiet autumn/winter but we have already had the equipment out on snow and ice control in October. County Aid Bridge Construction expenses exceed budget but those monies are, for the most part, recovered after invoicing.

Parks & Forestry Department Reports

Thursday, November 5, 2020

Director Report, by Chad Schooley

- I will not be attending the November HIRC meeting. If you have any questions/concerns with any packet material, please reach out to me prior to Wednesday, November 4th.
- As approved at the October HIRC, I have been working with E.M. to move forward with design work for a grant application for a storm shelter building at our Red Sands Beach location. Initial design costs will be split between the two departments. If received prior to the meeting, I will forward draft plans of the building.
- Northward Peddle and Paddle will be running our concessions this season at Powers Bluff. In addition, they will be renting snowshoes and selling towline tickets. We are finalizing our 1 year agreement.
- Attended Department Head meeting to discuss 2021 budget. Finance Department requested each department review proposed budgets and look for cost savings. Chairman Hahn and I discussed and agreed on removing CIP items that could be included in 2022 debt services. As a result, our \$180,000 CIP request was reduced to \$80,000, which now only includes fleet vehicle replacement and asphalt maintenance/replacement.
- Working through the Carlson/Dettman wage study results, and appeal process when requested, with employees.
- I am working with P&Z to develop uptodate maps for our Powers Bluff County Park; specifically for trail locations and use.
- I met with members of the River Cities Nordic Ski Club at Nepco to discuss trail improvements for this upcoming winter.
- **Special Use Permits**
 - None at this time.

Construction Supervisor Report, by Dennis Quinnell

Construction Projects

- The ATV intensive use area parking lot renovation project is completed.
- The North Park Wood Fence construction project is completed.
- We have begun a project at North Park Shelter which includes: replacing lighting with LED, increasing outlets, and kitchen remodel.

Maintenance Operations

- After a bumper camping season we are gearing up for the fall maintenance season and Powers Bluff. All water systems are off line.
- We are replacing the gate at the east end of the Red Beach field in South Park.
- The Dexter Campground remains open through gun deer season.

Employee Matters

- All LTE's but two are laid off until Powers Bluff opens.

OTHER

- We have placed 2 piles of oversized logs on the Wisconsin Surplus Auction website.

Office Supervisor Report, by Sandra Green

Snowmobile / ATV

- Attended the 2nd Snowmobile AWSC meeting of the season on October 5th in Sherry.

Office

- Camping season is winding down. Closing date is October 31st.
- Sent out a news release regarding closing of campgrounds.
- Sent out a news release regarding the ATV Intensive Use Area parking lot upgrade.
- Started working on the work schedule for Powers Bluff this winter.
- Started working on transferring reconciliation files over to 2021.
- Ordered various forms from Diamond Business Graphics.
- Cleaned and organized the supply room. Something that I've had on my list since we moved in here.
- Updated our website, Facebook & Instagram with miscellaneous announcements.
- Attended the October Wellness meeting on 10/22/2020.
- Attended and recorded minutes at the HIRC meeting on October 1st.
- Continue to work with Paul Bernard, Planning and Zoning, on various aspects of the ARC GIS system.

Forest Administrator, by Fritz Schubert

- Met loggers and started red pine final harvest (sale #767). Scaled wood and routine timber sale administration (multiple site visits).
- Timber Sale Establishment (Compartment 40).
- DNR dozers continued site prep. project in compartment 71, north of HWY 54.
- Finished Draft Chapter 700 of Wood County Forest 15-Year plan and road maps (November HIRC Agenda item).
- Started Draft Chapter 800 of Wood County Forest 15-year Plan.
- Set up new firewood harvest area for wood sales in park campgrounds. Developed short access road and installed temporary culvert.
- Attended Wood County Wildlife Area Advisory Committee Meeting.
- Forestry Tech. has been working at Powers Bluff on service road/multi-use trail development project.
- Forestry Tech. has been mowing several forest roads and hunter-parking areas as machinery is available.
- Cleaned up and mowed public shooting range.
- Marked public firewood cutting areas.

COUNTY FOREST COMPREHENSIVE LAND USE PLAN

700 ACCESS CONTROL AND HISTORY [PTT1]

Resource management, protection activities, recreational uses, and other public uses on the Wood County Forest require several different types of access. Since the Forest is large and diverse, a broad network of access routes have developed over the years. A combination of geography, soils, vegetation, surface waters, seasons of the year, presence/absence of roads or trails, ownership of adjoining lands, and public regulations interact to control access to any part of the Forest.

Many of the existing roads and trails were originally developed as logging roads, forest fire protection lanes, or trails used to reach popular hunting and fishing areas. The locations and standards for these earlier roads were not routinely established by county personnel, nor were they maintained on a regular basis.

Over the years, the road density and frequency of vehicle use on the Forest has increased in response to an expanding number of motorized recreational vehicles and to provide access for our harvest program. Often times, different uses have occurred on the same trails with minimal conflicts. But the diverse demands for, and uses of, the County Forest have reached the point where integrated access management planning is needed. [PTT2]

There are many potential problems to address, and reasons for an access management plan: [PTT3]

User conflict between groups: e.g., **ATVs versus** snowmobiling versus cross-country skiing; hunting on foot versus use of vehicles for access to game populations.

Safety: e.g., pleasure riding of horses on the same trail with ATV vehicle traffic, or hiking.

Erosion: soils eroding due to use, or over-use by vehicles **without routine maintenance**.

Damage to access: rutted or impassable roads requiring costly repair by the county or other specific user groups (e.g., snowmobile/atv club).

Litter/dumping: depositing garbage, tires, construction debris, and other waste on the Forest.

Over-utilization of a resource; e.g. reduced availability of trophy-sized deer, excessive harvest of ruffed grouse along trails, overharvest of bobcat, etc.

Crowding: e.g. complaints from hunters about intensified competition for traditional hunting areas as a result of better access.

Fires: e.g. increased exposure of the resource to forest fire occurrence.

Endangered species management: e.g. high road densities conflict with timber wolf recovery, eagle and osprey nest disturbance.

Invasive species: e.g. introduction of invasive exotic species along travel routes.

Developmental trends: e.g. preservation of the County Forest solitude by limiting access versus development of high intensity use by additional roads and unlimited access.

Road placement: e.g. some roads should be closed for improper location, **intended use/length of service**, and evaluated for replacement.

705 CHAPTER OBJECTIVES

1. Provide direction to the committee and resource managers in order to maintain a network of roads and trails on the County Forest. This will meet the needs for resource management and protection activities, as well as provide public access for recreation opportunities.
2. Identify the distribution, density, and types of roads and uses of roads and trails needed to establish a safe and efficient transportation and recreation system that complements the economic, environmental, and social interest in the County Forest.
3. Identify the existing and future County Forest roads eligible for transportation aids under s.86.315(1), Wis. Stats.
4. Identify areas on the County Forest where the access is limited or restricted.
5. Identify the provisions and criteria that will be policy when addressing management issues on the County Forest.

710 **ROADS**^[PTT4]

Wood County Forest staff will oversee the construction and maintenance of all roads within the County Forest. These roads may be constructed and maintained by ^[PTT5]the County, private contractors working under contract, other public resource agencies, non-profit organizations under cooperative agreement, etc.

The specifications for road construction and maintenance will vary with the frequency, duration, and planned use of each road. Three major types of roads occur on the Forest: permanent primary roads, permanent secondary roads, and temporary roads.

New road establishment should consider information identifying areas with sensitive soils or severe slopes that have the potential for adverse water quality impacts from land management practices. County staff can work with local DNR forest hydrologists to develop site-specific measures where appropriate and to follow all required permitting processes when applicable.

The forest should have enough roads to provide sufficient access, without degrading water resources, while still maintaining recreational experiences. Program evaluation of road infrastructure will continuously occur.

710.1 PERMANENT PRIMARY FOREST ROADS (County Forest Roads)

These roads are the primary roads accessing the County Forest. They are designed, constructed, and maintained for year-round use. These roads serve as essential access corridors for multiple use management. Some of these roads are graveled and routinely graded. Vehicle use may be restricted at various times of the year to minimize physical damage to the road or for safety reasons.

Some forest roads in this category qualify for the County Forest Road Aids program. Qualifying roads in this program must meet minimum design standards set by WI Statute

Section 86.315 (4) (a) and 86.315 (3) and administered by WI DOT. A yearly aid payment is used to maintain and improve these certified public roads. The following table [PTT6] lists the roads currently certified under s. 86.31(1), Wis. Stats. Also included are roads proposed for addition once improvements meet statute requirements.

WOOD COUNTY FOREST CURRENT WDOT CERTIFIED

TOWNSHIP	SECTION	LENGTH (MI)	ROAD NAME/COMMENTS
Hiles	15,16,21, 22	2.39	Peterson Road Extension
Hiles	5	.19	Nieman Road
Remington	18,19,23, 24,25,26	4.30	South Bluff Road
Port Edwards	33, 34	1.53	Red Pine Trail
Port Edwards	19	1.02	Hazelnut Trail
Cranmoor	18	.98	Hazelnut Trail
	TOTAL =	10.41	

WOOD COUNTY FOREST PROSPECTIVE FUTURE WDOT CERTIFIED

TOWNSHIP	SECTION	LENGTH (MI)	ROAD NAME/COMMENTS
Port Edwards	32	1.0	Kimball Connector

*() Indicates the mileage of existing roads that will be improved and certified during the next ten years.

These permanent primary roads will be maintained and remain open to public use. [PTT7]
 Permanent primary roads are mowed, brushed, and graded periodically as needed, but generally are not plowed in the winter. Culverts, drainage, gravel and other improvements are accomplished as yearly budgets allow. Portions of these roads also serve as snowmobile and ATV trails.

710.2 PERMANENT SECONDARY ROADS

These roads often serve a variety of uses including forest management, fire protection, and recreation. These roads are maintained as part of a permanent road system but are often narrower than permanent primary roads and are built and maintained to lower standards. Some of these roads are designed for use only when the ground is frozen or firm.

Many roads [PTT8] in this category are located in areas on the Forest where motor vehicle use is limited or restricted. In these instances, the roads will be blocked and/or signed as restricted. [PTT9] Some roads in this category are gated and may be open to vehicular traffic under frozen conditions. Some of these roads are also used as snowmobile trails in the winter.

In instances where motorized traffic is restricted, vehicle access will only be authorized for

planned management activities, fire protection, and in cases where motorized handicapped access has been approved. Foot traffic is allowed on all roads.

710.3 TEMPORARY ROADS

Many of the roads on the Forest fall into this classification. These roads are designed and constructed for short-term use for a specific project; often for timber harvest access. These roads are used only for a short duration and when the activity is done, the temporary road is closed either by the logging contractor or the County. These roads are naturally or artificially revegetated and closed by use of earthen berms/bunkers, boulders, or other physical barriers. In some cases, roads are completely closed with slash and debris to prevent future use and to encourage natural regeneration of trees.

Temporary roads on existing and past sales will be considered for closure. Reasons will include protection of perpetually wet soils, human safety, and prevention of illegal dumping.

The need for new temporary roads will be evaluated on a case-by-case basis. Road locations will be included in designing timber harvests. Consideration will be given to the objectives within each County Forest unit, existing road density, potential use, and soil type.

Decisions relating to post harvest status of temporary roads such as: suitability for potential upgrade and future vehicular use, type of road closure, method of rehabilitation and/or revegetation, etc. fall under the Wood County Forest Administrator's responsibility.

710.4 STATE, COUNTY, TOWN DRIVEWAY PERMITS

710.4.1 State Highways

Wisconsin DOT generally requires permits for permanent and temporary driveways on state highways. The County should track and retain permit records and work with local DOT

officials for access.

710.4.2 County Highways^[PTT10]

Access points to Wood County Highways are subject to Wood County Ordinance #401, Highway Access Control Ordinance. This ordinance establishes rules and a permit system for access (See appendix for Ordinance #401). Any new access or improvements to existing access to County highways from the Wood County Forest shall follow procedures established in Ordinance #401.

710.4.3 Town Roads^[PTT11]

Requirements for access to Town roads may vary depending on Township. Any new access, or significant changes to existing access, shall be accomplished through prior consultation with a representative of the particular Township in which the proposed access is located.

710.5 UTILITIES^[PTT12]

Access of the County Forest for utility reasons is covered under Chapter 500-20.5, Special Uses.

710.6 CULVERTS

In many cases culverts are needed in all three classifications of roads that are on the County Forest when dealing with drainages, wetlands and stream crossings. Some of these are temporarily placed culverts that are used during a specific project then removed, while others are permanent structures.

In all instances, culverts should be placed according to required DNR permitting procedures and should follow BMP's for culverts that can be found in chapters 4 and 5 of the WI BMP's for Water Quality PUB FR-093 2010.

Routine maintenance of these structures should also be completed to make sure structures are adequately working. The county may want to consider documenting the location of

culverts on the forest and provide a list of the culverts that should be routinely checked.

715 RESTRICTED ACCESS AREAS [PTT13]

In addition to providing trails for motorized vehicle use, the Forest may also provide and designate areas where motorized equipment is not permitted unless authorized by the Committee. The principal intent of these areas is to prevent environmental damage to sensitive areas, protect historical or archeological sites, protect endangered and threatened species, provide for human safety and provide areas for quiet, secluded recreation. In general, motorized use is not permitted off road, as well as on any closed roads, within the Wood County Forest (refer to Forestry Ordinance contained in the appendix).

720 WILD LAKES [PTT14]

The surface waters encompassed under the wild lakes designation include those restricted use areas that are not open to any gasoline-powered vehicles, water craft, or snowmobiles except when snow covered. There are no lakes under this designation contained within the Wood County Forest at this time. [PTT15]

725 ROAD CONSTRUCTION BEST MANAGEMENT PRACTICES FOR WATER QUALITY

The layout and construction of any new road or trail situated on the County Forest shall adhere to *Wisconsin's Best Management Practices for Water Quality* (PUB-FR-093-95). This access management plan addresses the need and diversity level of forest roads and trails within the County Forest. The BMP Manual provides guidelines for road construction. Soil disturbance activities in highly erodible soil areas may require mitigating measures in excess of those currently listed in the Best Management Practices manual PUB-FR-093-2010. Wider buffers, sediment control structures and water diversion techniques will be used as appropriate in these sensitive areas.

730 SIGNS

Signs on the County Forest will be used discreetly to perform and function with minimal

disruption to the multiple uses of the Forest. Private signs promoting personal, commercial or political objectives will not be permitted without authorization from Wood County. Signs erected by the county for management purposes or by non-profit recreational trail groups will be as follows:

1. Informational Type Signs
 - A. Interpretive Signs - to educate the general public about forest management practices.
 - B. Public Land Signs - to identify the land as Wood County Forest property.
 - C. Trail Markers - to provide direction and safety to trail users.
 - D. Scientific, Historical or Geological Markers - to identify points of interest.
 - E. Recreational Facility Markers - to identify park entrances, etc.
 - F. Directional Markers.
2. Regulatory Type Signs - to regulate the use of the Forest in specific areas.

730.1 SIGNING STANDARDS

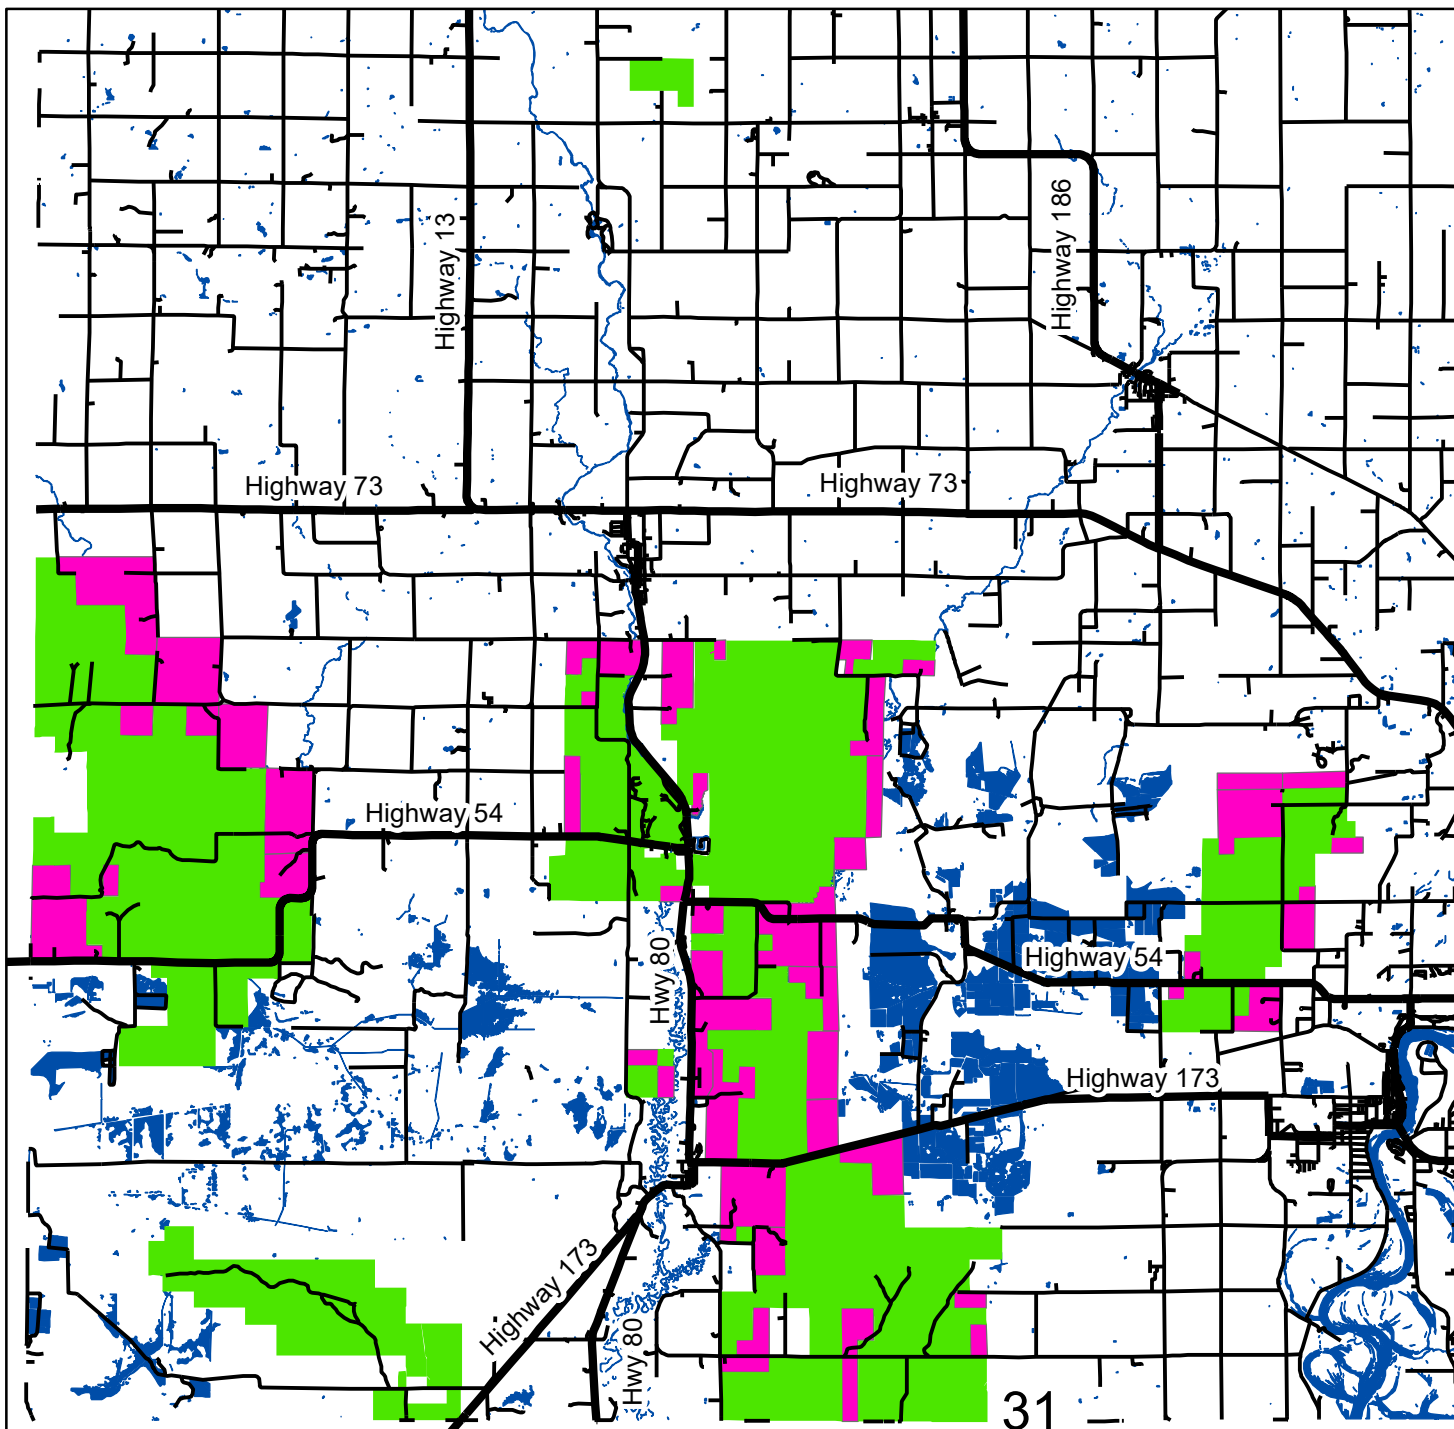

To assure that signs will serve a purpose without damaging aesthetics, the following^[PTT16] standards will be maintained: *(insert your county policy below)*:

1. *All signs will be mounted on treated wood posts or steel sign posts.*
2. *Routed wood signs **may** be used wherever practical. Fiberboard or painted metal signs, when used, will be of neat appearance.*
3. *Signs placed on snowmobile/ATV trails must conform to state standards and be approved by the committee.*
4. *All authorized signs shall be protected by ordinance from being damaged, defaced, obstructed, removed, or possessed by unauthorized persons.*
5. *All unauthorized signs will be removed by the Forestry staff. No compensation will be afforded for loss or damage to signs during removal. Individuals erecting unauthorized signs may be prosecuted under s. 943.13(3), Wis. Stats.*
